CARFAX Glossary

Emissions sticker

Emissions sticker and characteristics of the vehicles classified in the vehicles registration by DGT in regards to vehicle emissions. Soon, everyone will need a sticker because more and more cities and communities are setting up environmental zones, which are off limits to vehicles that give off high levels of harmful emissions. The authorities are employing this measure to reduce hazardous pollution in the form of fine particulate matter. To drive in such a zone, you need a valid sticker, or you need an approved exception. Otherwise you need to stay out.

Number of inspection records

Periodic examination of a vehicle to ensure compliance with road worthiness, emissions and safety requirements.

Number of odometer readings

The periodic mileage as reported to CARFAX. A greater number of odometer readings increases the likelihood of correct mileage.

Number of records

A CARFAX record refers to a specific incidence and date in the history of the vehicle. Please note that the history of younger vehicles tends to have fewer entries. CARFAX continuously works on getting more data sources and historical information in order to enrich the report

Owners

Total number of owners in a given country, registered both for private and non-private use. Not all owners actually had to use this vehicle.
