## CARFAX Glossary

### Emissions sticker

Emissions sticker and characteristics of the vehicles classified in the vehicles registration by DGT in regards to vehicle emissions. Soon, everyone will need a sticker because more and more cities and communities are setting up environmental zones, which are off limits to vehicles that give off high levels of harmful emissions. The authorities are employing this measure to reduce hazardous pollution in the form of fine particulate matter. To drive in such a zone, you need a valid sticker, or you need an approved exception. Otherwise you need to stay out.

### Inspections

Periodic examination of a vehicle to ensure compliance with road worthiness, emissions and safety requirements.

### Number of odometer readings

The periodic mileage as reported to CARFAX. A greater number of odometer readings increases the likelihood of correct mileage.

### Number of records

A CARFAX record refers to a specific incidence and date in the history of the vehicle. Please note that the history of younger vehicles tends to have fewer entries. CARFAX continuously works on getting more data sources and historical information in order to enrich the report

### Owners

Total number of owners in a given country, registered both for private and non-private use. Not all owners actually had to use this vehicle.

### Quick Check

A snapshot of the information CARFAX has abstracted from our extensive database to determine whether a vehicle has been reported stolen, reported scrapped, publicly imported or ever used for non-personal purposes. This summary is based upon all the information supplied to CARFAX from various sources. Additional information about this vehicle, including these potential problems, may exist and may not have been reported to CARFAX.

### Vehicle reference

User-provided value to identify the vehicle during the CARFAX Vehicle History Report retrieval process and to confirm vehicle identity on the report itself.
